DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 26-30 and 48, drawn to a cold separation device/process with a specific cutter.

Group II, claims 26, 31-33, 38-48 and 50, drawn to a cold separation device/process with a specific feeder/support.

Group III, claims 26, 34-37, 48 and 49, drawn to a cold separation device/process with a specific separation unit.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Art Unit: 3724

the invention of group I does not require the special technical feature(s) of the specific details of the feeder means and support means (e.g., being speed adjustable) of group II, or the special technical feature(s) of the specific details of the support means (e.g., the alignment means) of group III;

the invention of group II does not require the special technical feature(s) of the specific details of the cutter (e.g., a saw blade) of group I, or the special technical feature(s) of the specific details of the support means (e.g., the alignment means) of group III; and

the invention of group III does not require the special technical feature(s) of the specific details of the cutter (e.g., a saw blade) of group I, or the special technical feature(s) of the specific details of the feeder means and support means (e.g., being speed adjustable) of group II.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
